Profile

Software Developer and Computer Science student with a passion for building clean, maintainable, testable, and scalable code. I am proficient in Django, fluent in English, and adapt quickly to new languages and frameworks.

Experience

Coffeez   **Jul 2025 - Present**

Founder & Full-Stack Developer - Self-employed

🔗 https://coffeez.xyz

Built Coffeez, a platform for creators to receive cryptocurrency donations through virtual "coffee" purchases. Coffeez is open-source and available on GitHub.

Typersian and Typersian Website   **May 2025 - Present**

Founder & Developer - Self-employed

🔗 https://typersian.site

Built Typersian, world's first system-wide app that converts Finglish (Persian in Latin script) to Persian script; along with a website for it.

radanbahrami.com   **Aug 2025**

Developer
